

## PARENT GOVERNOR PEN PORTRAITS

Hello, I'm Sarah. I have two children; one in Year 3 and the other joining the Nursery in January. I would love to become a Parent Governor to support the school as it develops and adapts to the challenges of the current education climate, whilst preserving its distinctive creative ethos.

As an experienced primary teacher and literacy specialist, I will bring an understanding of curriculum development and strategies for enabling **all** of the children in our community to feel seen, valued, respected and inspired.

With an understanding of the joys and pressures of working in a school environment, I have a strong interest in wellbeing for our children and staff members. I would love to help build on the essential partnership between home and school and the effective communication that allows those vital relationships to flourish.

## PARENT GOVERNOR PEN PORTRAITS

I'm Luis Moreno, a Kilmore parent since 2023, with a son in Year One and a daughter expected to start in 2026. Drawn to Forest Hill by Kilmore's community spirit, I'm eager to contribute positively to our school's vibrant environment. As a financial services tax advisor, my expertise in financial statement analysis, client service, and stakeholder engagement, combined with a history of community volunteerism, positions me to offer a unique and relevant perspective as a parent governor. I feel my experience in these fields will help impact the financial objectives and any relevant challenges at Kilmore. I'm passionate about fostering an inclusive atmosphere at Kilmore, where every child can thrive and contribute to this great community

## PARENT GOVERNOR PEN PORTRAITS

Hello, I'm Nadine. I have been a Kilmorie parent since 2021. Our eldest is in year 2, our second in reception and our youngest will start nursery next September. My husband Guy and I have the joy of running our neighbourhood café on Stanstead Road and vintage café van in Blythe Hill Fields.

I am passionate about people and building community, how we can support and live together. I would say I am compassionate, tenacious and enjoy listening and working with others. I'd be delighted to join the team of parent governors. I see my role as a governor as one of service, to represent the voices of our parent community as best I can, and of course support the children, teachers and school as a whole.

## PARENT GOVERNOR PEN PORTRAITS

Hello I am Martha, I am mum to Samuel and Lois in Year 1. I have 18 years' experience of school governance and management in the UK and internationally. I currently chair the governing body of a group of seven successful schools in Sussex and Surrey. I am aware of the challenges schools face including funding, recruitment and retention of staff, falling pupil numbers and the rising need for SEND support.

I believe my experience would be helpful at this important moment for Kilmorie as it seeks to recruit a permanent headteacher and address the areas for improvement highlighted by the Ofsted report.
